INDEPENDENT AUDITOR'S REPORT

Board of School Trustees Canton Independent School District

Members of the Board:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Canton Independent School District (District) as of and for the year ended August 31, 2009, which collectively comprise the District's basic financial statements as listed in the accompanying table of contents. These basic financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the basic financial statements referred to above present fairly in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Canton Independent School District as of August 31, 2009, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 24, 2009, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in conjunction with this report in considering the results of our audit.

Management's discussion and analysis and budgetary comparison information identified as required supplementary information are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

<u>Independent Auditor's Report - Continued</u>

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The schedules identified as other supplementary information in the table of contents are presented for the purpose of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is also not a required component of the basic financial statements. Such information, except for the fund balance and cash flow calculation worksheet which is marked "unaudited" and on which we express no opinion, has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of School Trustees Canton Independent School District

Members of the Board:

We have audited the basic financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Canton Independent School District (District) as of and for the year ended August 31, 2009, which collectively comprise the District's basic financial statements and have issued our report thereon dated November 24, 2009. We conducted our audit in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the District's ability to initiate, authorize, record, process or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the District's basic financial statements that are more than inconsequential will not be prevented or detected by the District's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the District's basic financial statements will not be prevented or detected by the District's internal control.

Our consideration of internal control over financial reporting was for the limited purpose as described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Report on Internal Control - Continued

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, the Board of Trustees, the Texas Education Agency, and other grantors and is not intended to be and should not be used by anyone other than these specified parties.

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Board of School Trustees Canton Independent School District

Members of the Board:

Compliance

We have audited the compliance of the Canton Independent School District, with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133, Compliance Supplement that are applicable to each of its major federal programs for the year ended August 31, 2009. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the District's management. Our responsibility is to express opinions on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we consider necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinions. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the Canton Independent School District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended August 31, 2009.

Internal Control over Compliance

The management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grant applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

<u>Internal Control over Compliance - Continued</u>

A control deficiency in the District's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the District's ability to administer a federal program, such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the District's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section, and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the Board of Trustees, the Texas Education Agency, and other grantors, and is not intended to be and should not be used by anyone other than these specified parties.

This section of Canton Independent School District's annual financial report presents our discussion and analysis of the District's financial performance during the year ended August 31, 2009. Please read it in conjunction with the District's basic financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The District's total combined net assets were \$ 10,828,502 at August 31, 2009.
- During the year, the District's expenses were \$ 49,786 more than the \$ 18,528,087 generated in taxes and other revenues for governmental activities.
- The total cost of the District's programs was virtually unchanged from last year and no new programs were added this
 year.
- The General Fund reported a fund balance this year of \$ 4,914,626.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts—management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are government-wide financial statements that provide both long-term and short-term information about the District's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the government, reporting the District's operations in more detail than the government-wide statements.
- The governmental funds statements tell how general government services were financed in the short term as well as what remains for future spending.
- Proprietary fund statements offer short- and long-term financial information about the activities the government operates like businesses, such as a print shop.
- Fiduciary fund statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

The basic financial statements also include notes that explain some of the information in the basic financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the basic financial statements. Figure A-1 shows how the required parts of this annual report are arranged and related to one another.

Figure A-1, Required Components of the District's Annual Financial Report

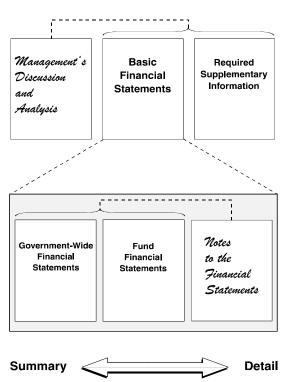

Figure A-2 summarizes the major features of the District's basic financial statements, including the portion of the District government they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

GOVERNMENT-WIDE STATEMENTS

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

T (C	G	G (1F 1	Fund Statements	P11 1 P 1
Type of Statements Scope		Governmental Funds The activities of the district that are not proprietary or fiduciary	Proprietary Funds Activities the district operates similar to private businesses: self insurance	Fiduciary Funds Instances in which the district is the trustee or agent for someone else's resources
Required financial statements	Statement of net assets Statement of activities	Balance sheet Statement of revenues, expenditures & changes in fund balances	Statement of net assets Statement of revenues, expenses and changes in fund net assets Statement of cash flows	Statement of fiduciary net assets Statement of changes in fiduciary net assets
Accounting basis and measurement focus	economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of asset/liability information	All assets and liabilities, both financial and capital, short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included	All assets and liabilities, both financial and capital, and short-term and long- term	All assets and liabilities, both short-term and long- term; the Agency's funds do not currently contain capital assets, although they can
Type of inflow/outflow information	expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during year, regardless of when cash is received or paid	All revenues and expenses during year, regardless of when cash is received or paid

Figure A-2. Major Features of the District's Government-wide and Fund Financial Statements

The two government-wide statements report the District's net assets and how they have changed. Net assets—the difference between the District's assets and liabilities—is one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net assets are an indicator of whether its financial health is improving
 or deteriorating, respectively.
- To assess the overall health of the District, one needs to consider additional nonfinancial factors such as changes in the District's tax base and student population.

The government-wide financial statements of the District include the governmental activities. Most of the District's basic services are included here, such as instruction, extracurricular activities, curriculum and staff development, health services and general administration. Property taxes and grants finance most of these activities.

FUND FINANCIAL STATEMENTS

The fund financial statements provide more detailed information about the District's most significant funds—not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by State law and by bond covenants.
- The Board of Trustees establishes other funds to control and manage money for particular purposes or to show that it is
 properly using certain taxes and grants.

The District has the following kinds of funds:

• Governmental funds—Most of the District's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information on the subsequent page that explain the relationship (or differences) between them.

- Proprietary funds—Services for which the District charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long-term and short-term financial information. We use internal service funds to report activities that provide supplies and services for the District's other programs and activities.
- Fiduciary funds—The District is the trustee, or fiduciary, for certain funds. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net assets. We exclude these activities from the District's government-wide financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

The District's combined net assets were \$ 10,828,502 at August 31, 2009.

					Table A-
Canton Independe	nt Sch	ool District's	Net	Assets	
					Total
		Govern	menta	al	Percentage
		Activ	ities		Change
		2009		2008	2008-2009
Assets:					
Cash and Investments	\$	6,424,104	\$	13,344,434	-51.86%
Other Assets		1,651,752		2,206,054	-25.13%
Capital Assets less Accumulated Depreciation		48,588,206		45,208,154	7.48%
Total Assets	\$	56,664,062	\$	60,758,642	-6.74%
Liabilities:					
Current Liabilities	\$	640,291	\$	4,402,596	-85.46%
Long-term Liabilities		45,195,269		45,845,275	-1.42%
Total Liabilities	\$	45,835,560	\$	50,247,871	-8.78%
Net Assets:					
Invested in Capital Assets, Net of Related Debt	\$	7,280,431	\$	7,019,656	3.71%
Restricted		1,203,600		955,246	26.00%
Unrestricted		2,344,471		2,535,869	-7.55%
Total Net Assets	\$	10,828,502	\$	10,510,771	3.02%

Approximately \$ 1,203,600 of the District's restricted net assets represent proceeds for debt retirement. These proceeds are restricted for debt retirement. The unrestricted net asset represents resources available to fund the programs of the District next year.

CHANGES IN NET ASSETS

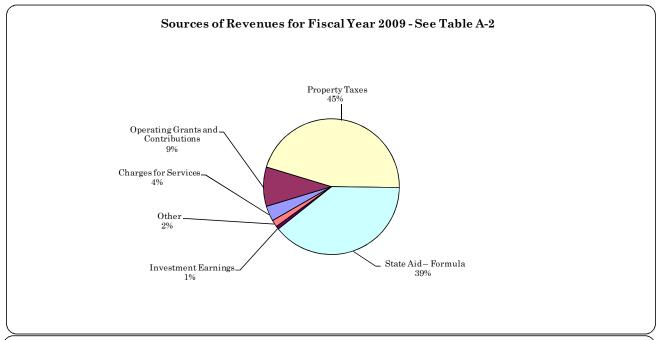

The District's total revenues were \$18,814,518. 46% of the District's revenue comes from local property taxes (See Table A-2). 49% comes from state aid and federal grants, while only 5% relates to charges for services and other revenue sources including investment income.

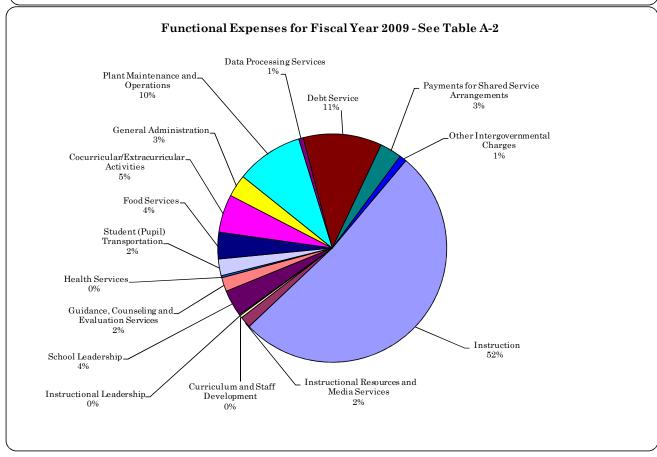

The total cost of all programs and services was \$ 18,577,873. 54% of these costs are for instruction and instructional related services.

The District's tax collection percentage rate (current and delinquent base tax only) was 99.16%. The total collection percentage rate (base tax and penalty and interest) was 101.62%.

Net Assets - Ending (August 31)	\$	10,828,502	\$	10,510,771	3.02%			

- Table A-3 presents the cost of selected District functions as well as the selected function's net cost (total cost less fees generated by the activities and intergovernmental aid). The net cost reflects what was funded by state revenues as well as local tax dollars.
- The cost of all governmental activities this year was \$ 18,577,873.
- However, the amount that our taxpayers paid for these activities through property taxes was only \$8,564,580.
- Some of the cost was paid by those who directly benefited from the programs \$686,054, or
- By grants and contributions \$ 1,762,650.

		Canton Independent School District's Net Cost of Selected District Functions

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Revenues from governmental fund types totaled \$ 18,541,973. Any increase in state revenues is a result of an increase of students in average daily attendance. Any increase in federal revenues is primarily due to an increase in federal program revenue distributed through other agencies.

Governmental fund type expenditures totaled \$ 22,582,341 for the year ended August 31, 2009. The total expenditures reflected a decrease of \$ 12,150,464. The District completed a building program in the prior year which contributed to the decrease in total expenditures.

GENERAL FUND BUDGETARY HIGHLIGHTS

Over the course of the year, the District revised its General Fund budget several times. With these adjustments, actual expenditures were \$ 717,298 below final budget amounts. The most significant positive variance resulted from instruction.

Resources available were \$ 189,296 above the final budgeted amount. The favorable variance was a reflection of increased student population growth realized by the District.

CAPITAL ASSETS AND DEBT ADMINISTRATION

CAPITAL ASSETS

At the end of 2009, the District had invested \$59,431,909 in a broad range of capital assets, including land, equipment, buildings, and vehicles (See Table A-4).

Canton Indepen	dent School Di	strict's Capi	ital	Assets	Table A-4

Net Capital Assets	\$	48,588,206	\$	45,208,154	7.48%

LONG TERM DEBT

At year-end, the District had \$45,195,269 in debt outstanding as shown in Table A-5. More detailed information about the District's debt is presented in the notes to the basic financial statements.

Canton Ind	ependent School Dis	trict's Long T	Γerm	n Debt	Table A-5

Other Debt Payable		4,181,058		3,921,009	6.63%
Total Debt Payable	\$	45,195,269	\$	45,845,275	-1.42%

ECONOMIC FACTORS

The District's property valuation continues to increase as in prior years. Local property tax rates are restricted by state statute, without local elections, to \$ 1.04 for maintenance and operation. The state funding formula was changed to provide state funds to replace the lost local property tax revenue. This change as well as other legislative changes in funding could impact the District's financial operations including cash flows.

Student population has maintained a steady trend in the District. The economic outlook for the area is for growth to be relatively steady. While property values continue to rise at a comparable level, housing has expanded at a rate similar to student attendance increases. These factors allow the District to continue to maintain constant funding and staffing levels.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Denise Stone, Business Manager for the District.

CANTON INDEPENDENT SCHOOL DISTRICT RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES YEAR ENDED AUGUST 31, 2009

Net change in fund balances - total governmental funds (4,039,744)Amounts reported for governmental activities in the statement of activities are different because: Capital outlays are not reported as expenses in the SOA. 4,745,891 The depreciation of capital assets used in governmental activities is not reported in the funds. (1,365,839)Trade-in or disposal of capital assets decrease net assets in the SOA but not in the funds. (624)The gain or loss on the sale of capital assets is not reported in the funds. 624 Certain property tax revenues are deferred in the funds. This is the change in these amounts this year. 57,232 Expenses not requiring the use of current financial resources are not reported as expenditures in the funds. (18, 151)Repayment of bond principal is an expenditure in the funds but is not an expense in the SOA. 835,000 32,615 Repayment of capital lease principal is an expenditure in the funds but is not an expense in the SOA. Repayment of loan principal is an expenditure in the funds but is not an expense in the SOA. 42,440 Bond issuance costs and similar items are amortized in the SOA but not in the funds. (18,092)The accretion of interest on capital appreciation bonds is not reported in the funds. (241,898)(Increase) decrease in accrued interest expense from beginning of period to end of period. 4,579 The net revenue (expense) of internal service funds is reported with governmental activities. (12,078)Revenues in the SOA not providing current financial resources are not reported as revenue in the funds. 214,690

CANTON INDEPENDENT SCHOOL DISTRICT NOTES TO THE BASIC FINANCIAL STATEMENTS YEAR ENDED AUGUST 31, 2009

A. Summary of Significant Accounting Policies

The basic financial statements of the Canton Independent School District (District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) applicable to governmental units in conjunction with the Texas Education Agency's <u>Financial Accountability System Resource Guide (Guide)</u>. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

1. Reporting Entity

The Board of School Trustees (Board), a seven member group, has governance responsibilities over all activities related to public elementary and secondary education within the jurisdiction of the District. The Board is elected by the public and as a body corporate has the exclusive power and duty to govern and oversee the management of the public schools of the District. All powers and duties not specifically delegated by statute to the Texas Education Agency (Agency) or to the State Board of Education are reserved for the Board, and the Agency may not substitute its judgment for the lawful exercise of those powers and duties by the Board. The District is not included in any other governmental "reporting entity" as defined by GASB in its Statement No. 14, "The Financial Reporting Entity." There are no component units included within the reporting entity.

The District receives funding from local, state and federal government sources and must comply with the requirements of these funding source entities.

2. Basis of Presentation – Basis of Accounting

a. Basis of Presentation

Government-wide Statements – The statement of net assets (SNA) and the statement of activities include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The statement of activities (SOA) presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The District does not allocate indirect expenses in the statement of activities. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements – The fund financial statements provide information about the District's funds, with separate statements presented for each fund category. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

CANTON INDEPENDENT SCHOOL DISTRICT NOTES TO THE BASIC FINANCIAL STATEMENTS YEAR ENDED AUGUST 31, 2009

A. Summary of Significant Accounting Policies (Continued)

The District reports the following major governmental funds:

General Fund – This is the District's primary operating fund. It accounts for all financial resources of the District except those required to be accounted for in another fund.

Debt Service Fund - This fund is used to account for the accumulation of resources for, and the payment of federal long-term debt principal, interest and related costs.

Capital Projects Fund – This fund accounts for proceeds of long-term debt financing and revenues and expenditures related to authorized construction and other capital asset acquisitions. Upon completion of a project, any unused bond proceeds are transferred to the Debt Service Fund and are used to retire related bond principal.

In addition, the District reports the following fund types:

Internal Service Funds – These funds are proprietary type funds. These funds are used to account for revenues and expenses related to services provided to parties inside the District. These funds facilitate distribution of support costs to the users of support services on a cost-reimbursement basis. Because the principal users of the internal services are the District's governmental activities, this fund type is included in the "Governmental Activities" column of the government-wide financial statements.

Fiduciary Funds – These funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, or other governments. These include private-purpose trust and agency funds. Private-purpose trust funds account for resources, including both principal and earnings, which must be expended according to the provision of a trust agreement, and are accounted for in essentially the same manner as proprietary funds. Agency funds are purely custodial and thus do not involve measurement of results of operations.

b. Measurement Focus – Basis of Accounting

Government-wide, Proprietary and Fiduciary Fund Financial Statements – These financial statements are reported using the economic resources measurement focus. The government-wide and proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements – Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until

A. Summary of Significant Accounting Policies (Continued)

actually received. Investment earnings are recorded as earned, since they are both measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of long-term debt and acquisitions under capital lease are reported as other financing sources.

When the District incurs an expenditure or expense for which both restricted and unrestricted resources may be used, it is the District's policy to use restricted resources first, then unrestricted resources.

Under GASB Statement No. 20, "Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund accounting," all proprietary funds will continue to follow Financial Accounting Standards Board (FASB) standards issued on or before November 30, 1989. However, from that date forward, proprietary funds will have the option of either 1) choosing not to apply future FASB standards (including amendments of earlier pronouncements), or 2) continuing to follow new FASB pronouncements unless they conflict with GASB guidance. The District has chosen not to apply future FASB Standards.

3. Budgetary Data

The official budget was prepared for adoption for the general, food service and debt service funds. The following procedures are followed in establishing the budgetary data reflected in the basic financial statements:

- a. Prior to August 20 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year beginning September 1.
- b. A meeting of the Board is called for the purpose of adopting the proposed budget with public notice given at least 10 days prior to the meeting.
- c. Prior to the expenditure of funds, the budget is adopted by the Board.

After adoption, the budget may be amended through action by the Board. Budget amendments are approved at the functional expenditure level. All amendments are before the fact and reflected in the official minutes of the Board. Budgets are controlled at the function level by personnel responsible for organizational financial reporting. All budget appropriations lapse at the year end. Budget amendments throughout the year were not significant.

4. Encumbrance Accounting

Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas law, appropriations lapse at August 31, and encumbrances outstanding at that time are to be either canceled or appropriately provided for in the subsequent year's budget. End-of-year outstanding encumbrances that were provided for in the subsequent year's budget are:

General Fund	\$ -0-
Special Revenue Fund	-0-
Debt Service Fund	-0-
Capital Projects Fund	 -0-
Total	\$ -0-

A. <u>Summary of Significant Accounting Policies (Continued)</u>

5. Financial Statement Amounts

Cash and Cash Investments

The District pools cash resources of its various funds in order to facilitate the management of cash. Cash applicable to a particular fund is readily identifiable. The balance in the pooled accounts is available to meet current operating requirements. Cash in excess of current requirements is invested in various interest-bearing securities and disclosed as a part of the District's cash and temporary investments.

For the purpose of the statement of cash flows, highly liquid investments are considered to be investments if they have a maturity of three months or less when purchased.

Fund Equity

In the Fund Financial Statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change. Unreserved fund balance indicates that portion which is available for appropriation in future periods. Fund balance reserves have been established for long-term debt, inventory supplies and food service.

Inventories

The purchase method is used to account for inventories of school supplies, athletic equipment and food products. Under this method supplies and materials are debited as expenditures when purchased.

Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated fair value at the date of the donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. A capitalization threshold of \$ 5,000 is used.

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

Asset Class	Useful Lives
	<u>Oberar Erves</u>
Buildings and Improvements	15-50
Vehicles	5-10
Other Equipment	3-15

<u>Debt Issuance Costs</u>

Debt issuance costs are included in noncurrent assets. Unamortized premium or discounts and refunding gains or lossed are reflected in net long-term obligations. Both debt issuance costs and other debts are amortized over the lives of the related debt issues using the straight line method.

A. <u>Summary of Significant Accounting Policies (Continued)</u>

Accretion

Accretion is an adjustment of the difference between the price of a bond issued at an original discount and the par value of the bond. For governmental activities debt, the accreted value is recognized as it accrues by fiscal year.

6. Receivable and Payable Balances

The District believes that sufficient detail of receivable and payable balances is provided in the financial statements to avoid the obscuring of significant components by aggregation. Therefore, no disclosure is provided which disaggregates those balances.

There are no significant receivables which are not scheduled for collection within one year of year end.

7. Interfund Activities

Interfund activity results from loans, service provided, reimbursements or transfers between funds. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers In and Transfers Out are netted and presented as a single "Transfer" line on the government-wide statement of activities. Similarly, interfund receivables and payables are netted and presented as a single "Internal Balances" line of the government-wide statement of net assets.

8. Vacation, Sick Leave and Other Compensated Absences

District employees are entitled to certain compensated absences based on their length of employment. Sick leave accrues at various rates established by the State and adopted by the Board of Trustees. Sick leave does not vest but accumulates and is recorded as an expenditure as it is paid.

9. Use of Estimates

The preparation of financial statements in conformity with GAAP requires the use of management's estimates.

10. Data Control Codes

Data control codes refer to the account code structure prescribed by the Agency in the *Guide*. The Agency requires the District to display these codes in its financial statements filed with the Agency in order to ensure accuracy in building a statewide database for policy development and funding plans.

11. Accounting System

In accordance with Texas Education Code, Chapter 44, Subchapter A, the District adopted and implemented an accounting system which at least meets the minimum requirements prescribed by the State Board of Education and approved by the State Auditor. The District's accounting system uses codes and the code structure presented in the accounting code section of the *Guide*. Mandatory codes are utilized in the form provided in that section.

B. Deposits, Securities and Investments

The District's funds are deposited and invested under the terms of a depository contract. The contract requires the depository to pledge approved securities in an amount significant to protect the District's day-to-day balances. The pledge is waived only to the extent of the dollar amount of Federal Deposit Insurance Corporation (FDIC) insurance. At August 31, 2009, it appears all District cash deposits were covered by FDIC insurance or by pledged collateral held by the District's agent bank in the name of the District. The District's deposits appear to have been properly secured throughout the fiscal year.

The District's investment policies and types of investments are governed by the Public Funds Investment Act. The Act requires specific training, reporting and establishment of local policies. The District appears to have been in substantial compliance with the requirements of the Act.

State statutes and local policy authorize the District to invest in the following types of investment goods:

- a. obligations of the U.S. or its agencies or instrumentalities,
- b. obligations of the State of Texas or its agencies,
- c. obligations guaranteed by the U.S. or State of Texas or their agencies or instrumentalities,
- d. obligations of other states, agencies or political subdivisions having a national investment rating of "A" or greater,
- e. guaranteed or securitied certificates of deposit issued by a bank domiciled in the State of Texas, or
- f. fully collateralized repurchase agreements.

District investments include investments in Texpool, LOGIC, certificates of deposit and Lone Star Investment Pool. All Texpool, Lone Star, certificates of deposit and LOGIC investments are reported at their share price (fair value) and are presented as cash and investments.

Texas Local Government Investment Pool (TexPool) has been organized in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. These two acts provide for the creation of public funds investment pools and permit eligible governmental entities to jointly invest their funds in authorized investments.

The Comptroller of Public Accounts (Comptroller) is the sole officer, director and shareholder of the Texas Treasury Safekeeping Trust Company, (Trust Company), which is authorized to operate TexPool. Pursuant to the TexPool Participation Agreement, administrative and investment services to TexPool are provided by Federated Investors, Inc. (Federated), under an agreement with the Comptroller, acting on behalf of the Trust Company.

The Comptroller maintains oversight of the services provided to TexPool by Federated. In addition, the TexPool Advisory Board advises on TexPool's Investment Policy and approves any fee increases. As required by the Public Funds Investment Act, the Advisory Board is composed equally of participants in TexPool and other persons who do not have a business relationship with TexPool who are qualified to advise TexPool.

The fund is rated AAAm by Standard & Poor's rating agency. This rating is the highest principal stability fund rating assigned by Standard & Poor's. This rating as well as the operational policies and procedures allow the fund to comply with the requirements of the Public Funds Investment Act.

The Lone Star Investment Pool is an investment pool available to governmental entities. The pool was established under the guidance of the Texas Public Funds Investment Act. A board of directors made up of members of the pool is responsible for the overall operation of the pool. The Board has employed various third party organizations to assist in the operations. These third parties are as follows: American Beacon Advisors and BNY Mellon Cash Investment Strategies – Investment Managers, RBC Wealth Management – Investment Consultant, Bank of New York Mellon – Custodian, First Public – Administration. In combination with these third party organizations, the pool has received a AAAm rating from Standard and Poor's. This rating allows the pool to meet the standards required by the Texas Public Funds Investment Act.

B. <u>Deposits, Securities and Investments (Continued)</u>

Local Government Investment Cooperative (LOGIC) was organized in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and operates under the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. The Public Funds Investment Act allows eligible local governments, state agencies, and nonprofit corporations of the State of Texas to jointly invest their funds in permitted investments.

The Cooperative's governing body is a six-member Board of Directors (Board) comprised of employees, officers or elected officials of participant Government Entities or individuals who do not have a business relationship with LOGIC and are qualified to advise it. A maximum of two advisory board members represent the Co-Administrators of LOGIC.

Day to day administration of LOGIC will be performed by First Southwest Asset Management, Inc. and JPMorgan Chase Investment Management, Inc. First Southwest will provide administrative, participant support and marketing services. JPMorgan Chase will provide investment management, custody, fund accounting and transfer agency services.

Portfolios will maintain a AAA or equivalent rating from at least one nationally recognized rating agency in compliance with the requirements of the Public Funds Investment Act. Class A Units of LOGIC I are currently rated AAAm by Standard & Poor's.

The following table identifies the District's investment at August 31, 2009:

	Credit	Fair
	Rating	Value
TexPool	AAAm	\$ 135,529
Lone Star Investment Pool	AAAm	2,988,134
LOGIC	AAAm	482,711
Certificate of Deposit	n/a	2,001,978
Total		\$ 5,608,352

In addition, the following is disclosed regarding coverage of combined cash balances on the date of highest balance:

- a. Name of bank: American National Bank of Texas, Canton, Texas.
- b. Amount of bond and/or security pledged as of the date of the highest combined balance on deposit was \$ 3,754,509.
- c. Largest cash, savings and time deposit combined account balances amounted to \$3,797,594, and occurred during the month of September 2008.
- d. Total amount of FDIC coverage at the time of the highest combined balance was \$ 256,468.

GASB Statement No. 40 requires a determination as to whether the District was exposed to the following specific investment risks at year end and if so, the reporting of certain related disclosures:

a. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized agencies are designed to give an indication of credit risk. At year end, the District was not significantly exposed to credit risk.

B. <u>Deposits, Securities and Investments (Continued)</u>

b. Custodial Credit Risk

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollaterized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the District's name.

Investment securities are exposed to custodial risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the Districts' name. At year end, the District was not exposed to custodial credit risk.

c. Concentration of Credit Risk

This risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At year end, the District was not exposed to concentration of credit risk.

d. Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. At year end, the District was not exposed to interest rate risk.

e. Foreign Currency Risk

This is the risk that exchange rates will adversely affect the fair value of an investment. At year end, the District was not exposed to foreign currency risk.

C. Property Taxes

Property taxes are levied by October 1, in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1, of the year following the October 1 levy date. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available when collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period.

Property taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectibles within the General and Debt Service Funds are based upon historical experience in collecting property taxes. Section 33.05, Property Tax Code, requires the tax collector for the District to cancel and remove from the delinquent tax rolls a tax on real property that has been delinquent for more than 20 years or a tax on personal property that has been delinquent for more than 10 years. Delinquent taxes meeting this criteria may not be canceled if litigation concerning these taxes is pending.

The District levied taxes on property within the District at \$ 1.04 to fund general operations and \$.431 for the payment of principal and interest on long term debt. The rates were levied on property assessed totaling \$ 572,939,973.

D. <u>Capital Assets</u>

Capital asset activities during the year ended August 31, 2009 were as follows:

]	Beginning		т		D		Ending
Governmental Activities:		Balance		Increases		Decreases		Balances
Capital Assets not Being Depreciated:

Totals	\$ 40,887,914	\$ 38,935,786	\$	79,823,700

E. <u>Long Term Obligations (Continued)</u>

Tax Notes

The District issued maintenance tax notes in prior years. The tax notes are recorded as loans in the District's records and mature over an extended life.

Maintenance tax notes outstanding at August 31, 2009, are as follows:

	Interest	Issued	Original	Outstandi	ing
Description	Rate	Date	Balance	Balance	<u>e</u>
Maintenance Tax Notes, Series 2001					
(TEC 45.108)	5.45%	6/18/01	\$ 383,438	\$ 91	1,945

Maturity requirements on tax notes at August 31, 2009, are as follows:

Year Ending					Total
August 31	Pr	rincipal	Interest	Rec	quirements
2010 2011	\$	44,753 \$ 47,192	5,011 2,572	\$	49,764 49,764
Totals	\$	91,945 \$	7,583	\$	99,528

Capital Leases

The District is obligated under certain leases accounted for as capital leases. The leases recorded here meet the criteria of a capital lease as defined by Statement of Financial Accounting Standards No. 13, "Accounting for Leases," which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee.

The following schedule lists personal property leased:

Description	Interest Rate	Date of Agreement	_	l Property Value
Citizens National Bank – Emergency Management System	5.32%	01/20/00	\$	273,178

The lease terms are for ten (10) years. The terms call for annual payments over the life of the lease.

E. <u>Long Term Obligations (Continued)</u>

The following is a schedule of the future minimum lease payments under the capitalized lease together with the present value of the net minimum lease payments as of August 31, 2009.

Year Ending	Annual Lease Payme				
August 31	Lease	rayments			
2010	\$	36,181			
Total Minimum Lease Payments Less: Amount Representing Interest	\$	36,181 (1,829)			
Present Value of Net Minimum Lease Payments	\$	34,352			

F. Pension Plan

1. Plan Description

The District contributes to the Teacher Retirement System of Texas (the "System"), a public employee retirement system. It is a cost-sharing, multiple-employer defined benefit pension plan with one exception: All risks and costs are not shared by the District, but are the liability of the State of Texas. The System provides service retirement and disability retirement benefits, and death benefits to plan members and beneficiaries. The System operates primarily under the provisions of the Texas Constitution and Texas Government Code, Title 8, Subtitle C. The Texas legislature has the authority to establish or amend benefit provisions. The System includes a publicly available financial report that includes financial statements and required supplementary information for the District. That report may be obtained by writing the Teacher Retirement System of Texas, 1000 Red River Street, Austin, TX 78701-2698, or by calling (800) 223-8778, or by downloading the report from the TRS internet website, www.trs.state.tx.us, under the TRS publication heading.

2. Funding Policy

Contribution requirements are not actuarially determined but are established and amended by the Texas state legislature. The state funding policy is as follows: (1) The state constitution requires the legislature to establish a member contribution rate of not less than 6.0% of the member's annual compensation and a state contribution rate of not less than 6.0% and not more than 10% of the aggregate annual compensation of all members of the system; (2) A state statute prohibits benefit improvements or contribution reductions if, as a result of a the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. State law provided for a member contribution rate of 6.4% for fiscal year 2009, 2008 and 2007, and a state contribution rate of 6.58% for fiscal years 2009 and 2008 and 6.0% for fiscal year 2007. In certain instances the reporting district is required to make all or a portion of the state's 6.58% contribution for fiscal years 2009 and 2008 and 6.00% for fiscal year 2007. The District's employees' contributions to the System for the periods ended August 31, 2009, 2008 and 2007 were \$533,517, \$483,477, and \$504,422, respectively. Contributions from private grants and from the District for salaries above the statutory minimum for the periods ended August 31, 2009, 2008 and 2007 were \$ 97,986, \$ 91,497, and \$ 79,897, respectively.

F. Pension Plan (Continued)

3. On-Behalf Payments

In accordance with GASB Statement No. 24, "Accounting and Financial Reporting for Certain Grants and Other Financial Assistance," on-behalf payments (payments made by the State) of \$ 464,865 are reflected in the general fund basic financial statements.

G. School District Retiree Health Plan

1. Plan Description

The District contributes to the Texas Public School Retired Employees Group Insurance Program (TRS-Care), a cost-sharing multiple-employer defined benefit post-employment health care plan administered by the Teacher Retirement System of Texas. TRS-Care Retired Plan provides health care coverage for certain persons (and their dependents) who retired under the Teacher Retirement System of Texas. The statutory authority for the program is Texas Insurance Code, Chapter 1575. Section 1575.052 grants the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants. The TRS issues a publicly available financial report that includes financial statements and required supplementary information for TRS-Care. That report may be obtained by visiting the TRS website at www.trs.state.tx.us, by writing to the Communications Department of the Teacher Retirement System of Texas at 1000 Red River Street, Austin, Texas 78701, or by calling 1-800-223-8778.

2. Funding Policy

Contribution requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. Texas Insurance Code, Sections 1575.202, 203, and 204 establish state, active employee, and public school contributions, respectively. The State of Texas and active public school employee contribution rates were 1.0% and 0.65% of public school payroll, respectively, with school districts contributing a percentage of payroll set at 0.55% for fiscal years 2009, 2008, 2007. Per Texas Insurance Code, Chapters 1575, the public school contribution may not be less than 0.25% or greater than 0.75% of the salary of each active employee of the public school.

3. On Behalf Payments

In accordance with GASB Statement 24, "Accounting and Financial Reporting for Certain Grants and Other Financial Assistance," on-behalf payments (payments made by the State) of \$ 70,648 are reflected in the basic financial statements for Retiree Health Plan contributions. Additionally, the District benefited from payments made by the State totaling \$ 19,115 for subsidies for Medicare Part D.

H. Risk Management

Health Care

During the year ended August 31, 2009, employees of the Canton Independent School District were covered by a health insurance plan (the Plan). The District paid premiums of \$ 225 per month per employee and employees, at their option, authorized payroll withholdings to provide dependents coverage under the Plan. All premiums were paid to TRS Activecare (Blue Cross/Blue Shield). The Plan was authorized by Article 3.51-2, Texas Insurance Code and was documented by contractual agreement.

The contract between the Canton Independent School District and TRS Activecare (Blue Cross/Blue Shield) is renewable December 1 of each year and terms of coverage and premium costs are included in the contractual provisions.

H. Risk Management (Continued)

Latest financial statements for Blue Cross/Blue Shield are available for the year ended December 31, 2008, and have been filed with the Texas State Board of Insurance, Austin, Texas, and are public records.

Workers' Compensation

The District participates in the East Texas Educational Insurance Association Workers' Compensation Self Insurance Joint Fund. The District is partially self-funded to a loss fund maximum of \$84,708 for the 08-09 fiscal year. Additionally, the District incurred fixed costs of \$32,117 for their share of claims administration, loss control, record keeping and cost of excess insurance.

Claims administration is provided by Claims Administrative Services, Inc. Reinsurance is provided for aggregate claim losses exceeding \$ 225,000. The fixed cost charge is based on total payroll paid by the District. Increases or decreases in the fixed costs will adjust subsequent year charges.

The accrued liability for workers' compensation self insurance of \$42,267 included \$42,267 of incurred but not reported claims. This liability is based on the requirements of GASB Statement No. 10, "Accounting and Financial Reporting for Risk Financing and Related Insurance Issues," which require that a liability for claims be reported if information indicates that it is probable that a liability has been incurred and the amount of loss can be reasonably estimated. The liability recorded is an undiscounted actuarial calculation.

Changes in the workers' compensation claims liability amounts in periods of 2009 and 2008 are represented below:

2009			2008
Beginning Claims Liability Claims Incurred (Reduced) Claim Payments	\$	39,831 11,739 (9,303)	\$ 45,147 670 (5,986)
Ending Claims Liability	\$	42,267	\$ 39,831

Other Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2009, the District purchased commercial insurance to cover these liabilities. There were not significant reductions in coverage in the past fiscal year, and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

I. Litigation

The District does not appear to be involved in any litigation as of August 31, 2009.

J. <u>Prior Period Adjustments</u>

Government-wide Financial Statements

The increase in net assets identified on Exhibit B-1 includes the following corrections of errors in prior periods:

Recognition and receipt of state aid funding	
and reduction of state funds recognized as	
earned in the prior period	\$ 81,086
Total Prior Period Adjustment	\$ 81,086

$Governmental\ Funds$

The increase or decrease in various major funds as identified on Exhibit C-3 includes the following corrections of errors in the prior period:

General Fund -	
Recognition and receipt of state aid funding	
earned in prior periods	\$ 88,266
Debt Service Fund -	
Recognition and reduction of state aid funding	
recognized as earned in prior periods	(7,180)
Total Prior Period Adjustment	\$ 88,266

K. <u>Commitments and Contingencies</u>

The District participates in numerous state and federal grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, if any, refunds of any money received may be required and the collectability of any related receivable at August 31, 2009, may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

L. <u>Shared Service Arrangements</u>

The District participates in cooperative programs with other local districts. The District does not account for revenue or expenditures of these programs and does not disclose them in these financial statements.

Shared Service Agreement	Fiscal Agent	Service
Van Zandt County Special	Edgewood Independent	Special
Ed. Cooperative	School District	Education
Van Zandt	Grand Saline Independent	Alternative
DAEP	School District	Education
Block Grant	Region X Education Services Center	Title II Part A Title III Part A Title IV Part A Title V Part A
Vocational	Martins Mill Independent	Vocational
Cooperative	School District	Education

M. Revenue from Local and Intermediate Sources

During the year ended August 31, 2009, the District received revenue from local and intermediate sources consisting of the following:

	General Fund	Debt Service Fund	Capital Projects Fund	Go	Other vernmental Funds	Totals
Property Tax Collections - Current	\$ 5,766,729	\$ 2,389,866	\$ -	\$	-	\$ 8,156,595
Property Tax Collections - Delinquent	156,265	52,040	-		-	208,305
Penalties, Interest and Other						
Tax Related Income	103,797	38,650	-		-	142,447

CANTON INDEPENDENT SCHOOL DISTRICT NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS YEAR ENDED AUGUST 31, 2009

A. <u>Basis of Presentation</u>

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the Canton Independent School District and is presented on the modified accrual basis of accounting. Expenditures are recognized in the accounting period in which a fund liability occurs. Funds are considered earned to the extent of expenditures made.

The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of State, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

B. <u>Food Distribution</u>

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed. No provision has been made for amounts on hand at August 31, 2009.
